

3 THINGS

VETERINARY LEADERS DO TO SHAPE THE FUTURE

1

CREATE INSIGHT

It's the moment our brain considers new possibilities. Use constant questions to cause people to think about possibilities.

2

CHALLENGE OPPOSITIONAL THINKING

No new thing gets attempted if we decide ahead of time that it won't or can't work. And a better future is built on attempting new things.

3

SUPPORT WITH VISION

Believing in, investing in, and supporting others as they create a new and better future for themselves is one of the most rewarding things a leader can do.
