

Fairness

IN YOUR VETERINARY PRACTICE

If you want to be fair in how you lead your veterinary team, ask yourself these questions:

- ? Is it fair to spend more time coaching your poor performers than you do your superstars?
- ? Is it fair to reward people who contribute less to the success of the practice the same as you reward those who contribute more?
- ? Is it fair to your people to allow your practice to be less successful than it could?
- ? Is it fair to allow someone to stay in a job where they are not happy or successful?
- ? Is it fair to allow people to be less than they are capable of in your practice?
